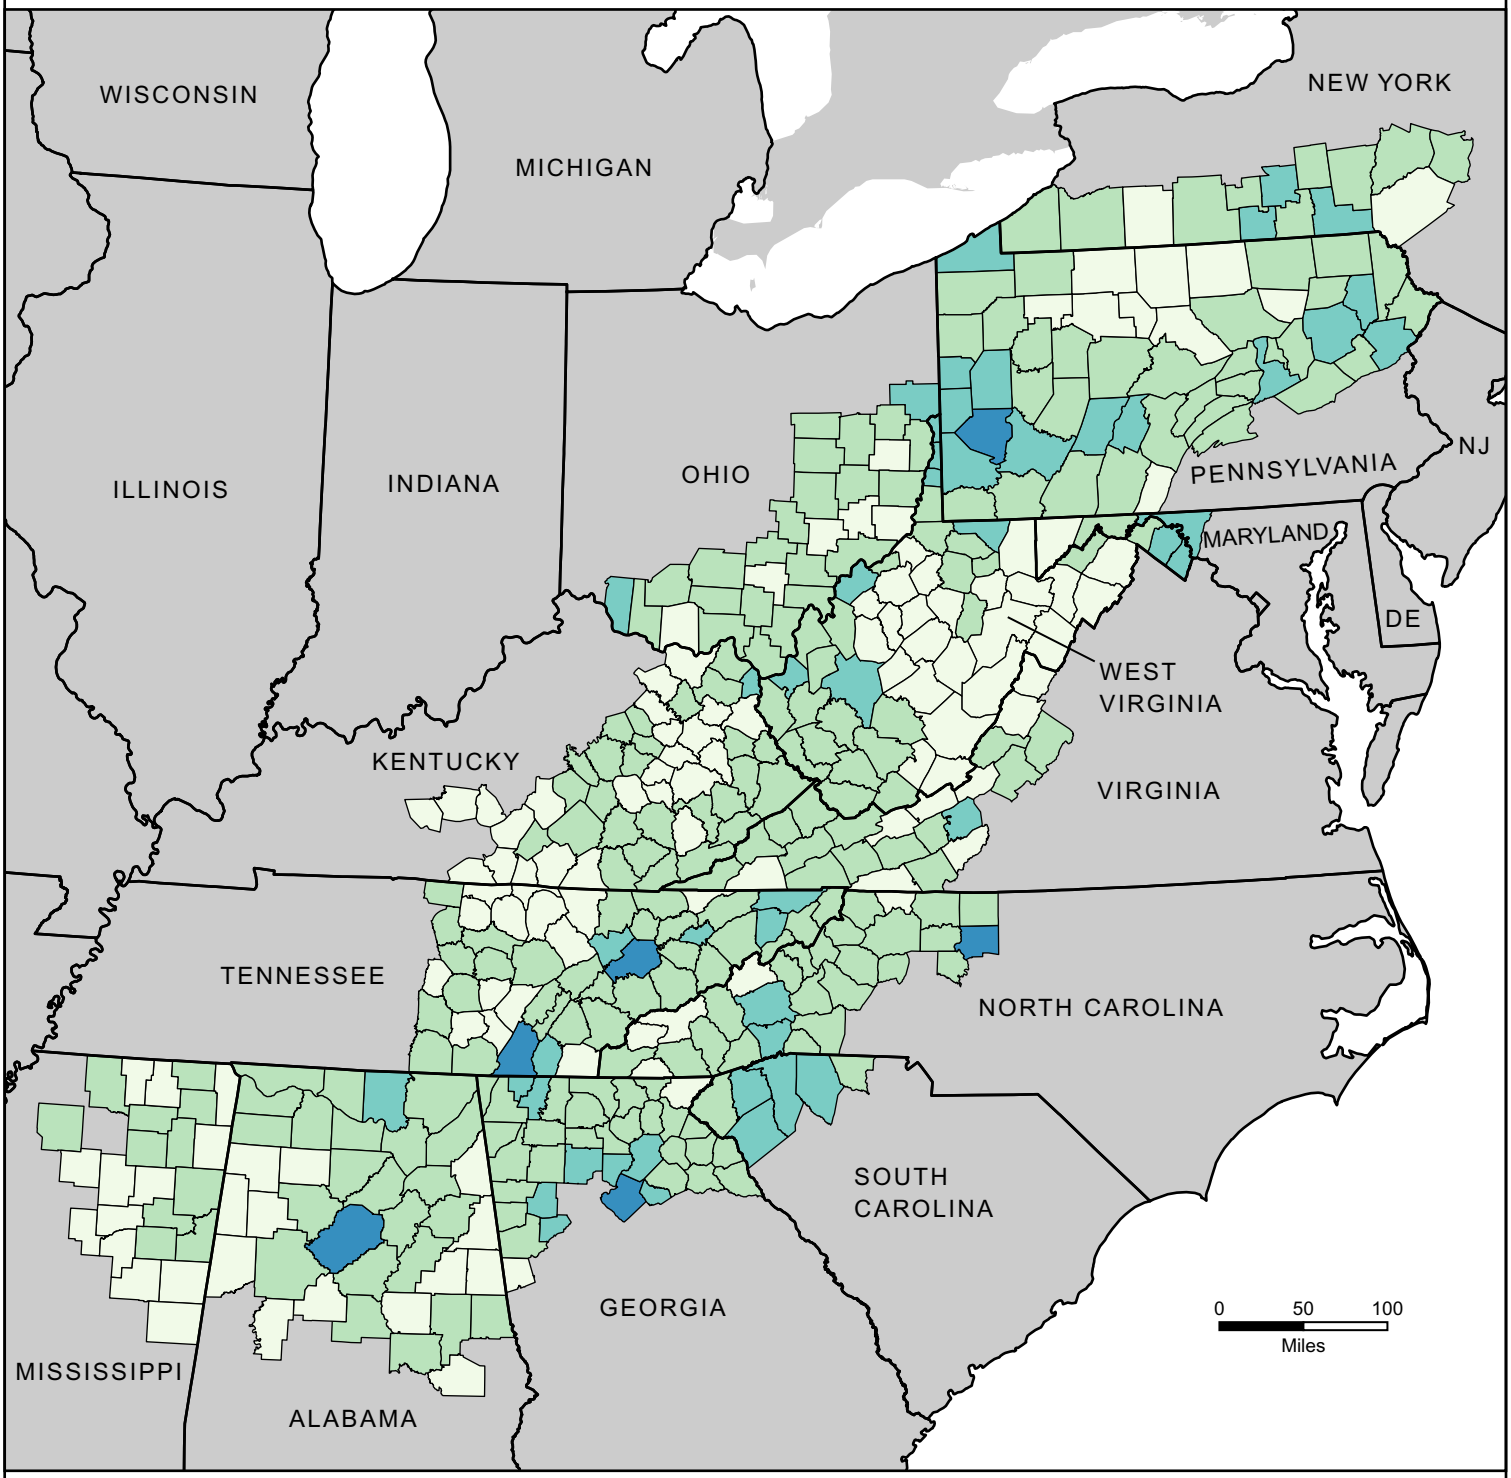
Population Density Rates in Appalachia, 2000



Population density is a measure of the dispersion of people, which is calculated by dividing the 2000 census population by the 2000 land area in square miles.

U.S. average = 79.6
Appalachian average = 114.1

People Per Square Mile

- 500 - 1,755
- 200 - 499
- 50 - 199
- 6 - 49
